## SWIFT WELCOMES \$662 MILLION AGED CARE FUNDING BOOST

Leading communications, content and advertising solutions provider Swift Networks Group Limited (ASX: SW1, "Swift" or "the Company") welcomes the Federal Government's recently announced \$662 million aged care funding boost. This announcement follows a series of contract wins by Swift in the aged care sector in the last few weeks.

### NEW CLIENTS:

Swift has recently secured initial 3-year contracts with a number of operators including Berrington Care Group and Allity Aged Care.

- Perth-based, luxury aged care provider, Berrington Care Group will be utilizing the Swift Aged Care solution across over 200 screens.
- The Swift Aged Care solution will also be rolled out to Allity Aged Care's 77-room Gosling Creek Community in Orange, NSW, with significant scope for expansion across Allity's Australian network of over 40 facilities.

### BERRINGTON OWNER AND OPERATIONS DIRECTOR, KAREN GILLINGHAM, SAID:

*"As a luxury Aged Care provider, we are accustomed to providing the best services to our residents. We are therefore very excited at being able to offer extensive in-room entertainment options to our residents where they will be able to see communications from their families as well as up-to-the-minute information on lifestyle activities and important information. We are looking forward to this new offering and to what Swift and Berrington can achieve together."*

### SWIFT CHIEF EXECUTIVE OFFICER, XAVIER KRIS, SAID:

*"The Government's announcement is a significant milestone in the democratisation of aged care. The funding includes \$320 million to residential facilities, enabling operators to invest in services that provide residents with choices and a real voice... the ability to be treated as guests, not patients."*

*"Our platform delivers an easy to use entertainment and two-way communication service as well as custom curated exercise, education, well-being and dementia specific content coupled with the ability to communicate directly with friends and family. These services greatly reduce the all too common issue of isolation."*
