Swift Media Limited (“Swift Media”, “the Company”) (ASX:SW1) provides the following business update and 4C Cash Report for the quarter ended March 31st 2020.

Summary

- Strategy to transition Swift to a more streamlined digital communications and entertainment system provider is generating encouraging early results
- Five new contract wins worth over \$3.2m announced in early April
- Around \$8m of annualised cost savings achieved in late March – ensures Swift can generate positive cash flows and profitability through even a protracted downturn
- \$3.3m equity capital raise oversubscribed – supported by founder, Chair, financier and new institutional investors
- COVID-19 creating challenges and opportunities; temporary disruptions to site access with social isolation in mining villages, quarantine camps and aged care facilities creating new demand for Swift’s digital communication and entertainment solutions

Pippa Leary, CEO said, “2020 is a transition year for Swift. We are developing new fit for purpose product, upgrading our talent and capabilities, focusing our resources on key verticals and strengthening our balance sheet to fund our growth strategy.

Notwithstanding all the disruptions in the wider macro environment, we have been making good progress in executing on our focused strategy. The five recent contract wins we announced to ASX in April are encouraging early signs of progress. By leveraging our market leading share and deep expertise in our core verticals we are able to deliver successful results and drive long term growth.

The recently launched Swift Plus product is generating good customer interest in both the Aged Care and Mining and Resources verticals. We listened carefully to customers and designed a new product suite. Swift Plus has completed alpha and beta customer testing and we have secured our first three sales to aged care operators. We can now provide user friendly telecommunications and digital entertainment services that enable camps and care facilities to stay connected with residents and overcome the growing problems of social isolation. With our upgraded sales capability we are focused on strengthening the pipeline of new contract opportunities.

In late March we streamlined Swift and reduced costs by \$8m on an annualised basis largely in response to Covid-19. These measures should ensure we are profitable even through an extended downturn. We have retained our core intellectual property and the capability to scale up as demand increases.

We also set out to recapitalise Swift to strengthen the balance sheet and provide funds for growth. Through a combination of a placement and entitlement offer we set out to raise around \$3.3m. We are delighted by the response and the offer was oversubscribed. We appreciate the support of our existing shareholders and we welcome new investors to Swift as well.
